

The Suspects

Vivian LeSage

An adventurer at heart, Vivian is up for anything and is the life of the party. She loves to be daring, and will try anything once – some things twice! She seems to have skills not common to the average person, but when asked where she learned to do something in particular, she's very quick to change the subject and avoid the question all together. She is the one who has arranged this trip to The Floating Flower Oasis Spa, and loves to wear pretty, flowing floral dresses and luxurious up-do's.

Whitney Noble

Whitney Noble is an outdoor enthusiast who loves getting dirty. Gardening and painting are her hobbies of choice. She is a resourceful woman with an uncanny ability to inspire others to do things they wouldn't normally do. In spite of her love of getting dirty, she also has a penchant for shoes, and has a collection of stilettos that make her friends drool.

Olivia Blake

Olivia is the owner of The Floating Flower Oasis Spa, and is an entrepreneurial force! She works harder and longer than any of her staff, and in addition to owning the spa, plays an active, hands-on role in the business. Since starting The Floating Flower Oasis Spa she has personally served a wide array of people, from foreign princesses to celebrities. She is both glamorous and posh, and is always immaculately put together – some say reminiscent of Kate Middleton.

Elyse Catiana

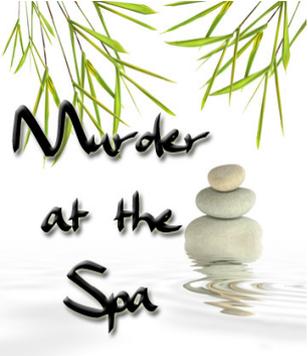

Elyse is a vivacious woman whose presence is always known on account of her loud voice and infectious laugh. She is passionate, inspiring and invaluable to all those who have the pleasure of knowing her. Those who know her well insist she missed her calling as an actress, but the closest she gets to the stage is through her love of old movies – especially Film Noir and bank heist classics. She loves dressing like the 50's screen gems, and integrates their classic style into her everyday wardrobe.

Bianca Francesco

Bianca is both beautiful and intelligent – a double threat! She's incredibly articulate and a stunning conversationalist. Bianca is slightly guarded at times though, can be terse and short-tempered, especially before she gets to know someone. Her clothing is conservative and she never goes anywhere without her day planner, which is perceived as strange in today's modern, paperless world.

Calista Storm

Calista is a fearless and strong woman, ambitious and self-sufficient. She is incredibly observant, and upon entering a room, often notices things others would never see for themselves. For this reason, she is referred to as the "Sherlock" of the group, although she prefers to think of herself as more of a "surveillance" operative than a detective. She wears beautiful dresses underneath – what else? A classic feminine trench coat.

Zara Greystone

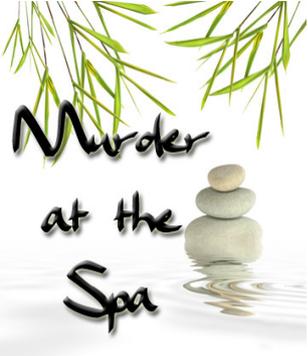

In charge of reception and booking, Zara has worked at The Floating Flower Oasis Spa under owner Olivia Blake since she opened the facility. With a keen eye for beauty and design, she has contributed many opinions to the relaxing decor of the spa, and takes pride in what she does – while making use of the spa facilities whenever she can!

Natalya Hall

Natalya is a compassionate and self-driven woman who sets goals and achieves them easily. A great person under fire, she does not panic easily and takes pride in being her own woman. She's resourceful, reliable and disciplined, and is always there for her friends who need her. She enjoys a trip to the spa once a month, and always wears the most stunning jewellery to compliment her well-crafted and classic outfits.

Fiona Faye

Fiona is the friend everyone wants. She's always quick to lend an ear at the end of a tiring day – which may or may not be accompanied by a meal and a glass or two of wine. She is stable and strong, and because of that many consider her a “rock”, solid in the face of adversity and always there when she's needed. Fiona is very close friends with Janelle King, and the two are considered by the group to be inseparable.

Jenelle King

Jenelle is one of Vivian's good friends who sometimes seems distracted, as though she is thinking about five things at the same time – and chances are she is! She asks a lot of questions about others, and is genuinely interested in their replies. She amazes people all the time with the details she remembers from conversations they had years ago, and she claims she has her photographic memory to thank for her attention to detail. Jenelle is also a long-time friend of Fiona Faye's, and sometimes the two seem inseparable. She wears glasses and is never seen without her smart phone.
