

MYSTERY at the MATCH

SUSPECT LIST

LEGACY

AVERY MARTINS

A member of Legacy (formerly The Dalhousie Dribblers), Avery is a forward and the top scorer for Legacy. Tough and strong, Avery is an athletic girl who lives and breathes soccer, and is devoted to taking Legacy from the “underdogs” to champions... perhaps at any cost! When she is not in school or at practice, she runs drills and works out at the club gym to keep herself in top shape.

LIZZIE SISCO

A member of Legacy, Lizzie is a fun-loving goaltender who keeps her team in stitches as they run drills. During a match though, she's all business, and some have argued that her knack for anticipating where her opponent is going to kick the ball is the only reason Legacy even made it to the championships this season.

EVIE WEST

A member of Legacy, Evie is a newcomer to the team, having only joined a few weeks ago. Shifting the team was a surprise move by the coach, but after the team lost one of their star players recently, Legacy was one player short of a team. Evie is a bit of a mystery to her team mates, but her soccer skills are undeniable, and she is threatening to dethrone Avery Martins as Legacy's top scorer.

PIPER ROGERS

Legacy's manager, Piper is just one of the girls. She joined the team at the start of last season, when Legacy was still known as "The Dalhousie Dribblers". Since, the team has changed their name, secured a great coach and actually became contenders for the championship this season, so she must be doing something right! Piper is vivacious, and is excited to see Legacy take home the Zelder trophy at championships this year.

the sirens

MAYA FISHER

Maya is a member of the Serenity Heights Sirens, the reigning league champions. For the last three years straight, The Sirens have won the championships, and Maya has no intention of letting their winning streak end now, especially since she and a number of others on the team are celebrating their final year playing in the league. Maya is sharp-tongued and blunt, and doesn't hesitate to let her team mates know where they can improve – and when they make a mistake!

MYSTERIES.COM

SKYLAR KING

Considered to be the top striker in the region, Skylar has dreams of playing soccer for her country in the Olympics. For her, soccer is even more important than school or a social life, and Skylar spends more time at the clubhouse than she does at home. Throughout the championships, scouts from universities as well as world-renowned coaches have come to watch her play. Skylar is cool under pressure though, and has had a number of replay-worthy moments during these regional finals. Skylar plays for the Serenity Heights Sirens.

KAYLEE CHURCH

Kaylee has a reputation of being nice – perhaps too nice at times, and she often finds herself running interference between her team mates. On the pitch though, her kind, happy demeanour vanishes – Kaylee plays to win! She considers The Sirens her family, and she is a devoted friend to each player, unconditionally. The medals she and The Sirens have won over the years are on display in her bedroom.

NAVEAH MONROE

Manager of The Serenity Heights Sirens, Naveah is a no nonsense manager who considers her team the best in the region; and for good reason – she has seen The Sirens win the Zelder trophy year after year, and until this season, they have hardly had any competition. Naveah has managed the team since she was a player herself, and still laces up her cleats when the team is down a player. As resourceful on the field as she is off, Naveah has turned The Sirens into undefeated champions year after year, and she has a wait-list of high-ticket sponsors begging for the chance to get behind The Sirens.

THE ANGELS

GLORY GOADS

The newest recruit to The Arbour Woods Angels, Glory is a sharp-tongued, no nonsense player who takes no excuses from her team mates. While she comes across sweet, Glory can be vicious on the field, and does not take losing well. This is great for The Angels, as her contributions have helped them become major contenders for the Zelder trophy this year, and if she keeps playing during the championships the way she has this season, The Angels have a great shot at winning.

MINDY ABERNATHY

A member of The Arbour Woods Angels, Mindy is the cheer-leader of the team, always optimistic and finding the good in every situation. At least, that's how she seems on the outside – her team mates can attest that she has a cunning side, and is great at outsmarting others. This skill has made her invaluable on the field for The Angels, as the plays she dreams up leave other teams aghast.

ADALYN HAWKE

A member of The Auburn Heights Angels, Adalyn is their goal tender, and one of the best in the league. A quiet girl, Adalyn is super-focused on whatever she is doing in the moment, especially if that task is stopping a soccer ball! Adalyn is determined to win the Zelder trophy for her team this year, and figures that as long as she lets no balls in the net, they should be able to make that happen. This is not unreasonable, as during the entire season, she only allowed five goals.

MYSTERY
at the
MATCH

VICTORIA LINCOLN

Manager of The Auburn Heights Angels, Victoria Lincoln is charged with keeping the team sponsored and organized. She takes it upon herself to also ensure that the team mates are in good health, getting enough sleep and not letting their personal lives interfere with their chance at the Zelder trophy. Her concern for The Angels is endearing, and most of the players think of her like a big sister.
